🐦 @installjournal

🌐 bhuvanas

📍 Sathyamangalam, India

## SUMMARY

As an experienced leader, I focus on cloud migration and modernization, strategic alliances, cloud service delivery. My expertise includes AWS cloud services, Infrastructure-as-Code frameworks, DevOps practices, Automated Release management (CI/CD) and Software Resilience/Performance/Quality management. I am dedicated to fostering collaboration and knowledge sharing in professional communities.

## EXPERIENCE

### Chief Cloud Evangelist

#### Intuitive Cloud

📅 Mar 2023 - Ongoing

📍 Ahmedabad, India

- Spearheaded the development of a Cloud FinOps framework, resulting in a **30% decrease in cloud spending** for customers and enhancing financial control of cloud assets by implementing proactive monitoring and cost optimization tactics.
- Enhanced strategic partnerships with major cloud service providers, promoting advanced technologies and services to customers.
- Ideated and Implemented underlying processes, tools and best practices around Cloud managed services, AWS partner led support for enterprise class customers
- Led Cloud Center of Excellence and Service Delivery Program, assisting company in achieving **4 prestigious AWS competencies & FinOps Foundation Service Provider Accreditation**.
- Created impactful thought leadership content to offer profound insights and examples of current trends in AI, ML, & cloud, resulting in a **quadruple increase in the follower base and a sevenfold expansion of blogs, use-cases & case studies**.

### Director, Software Development

#### Infor

📅 Oct 2012 - Feb 2023

📍 Bengaluru, India

- Managed end-to-end processes and automation for build, release deployment, functional, security, and performance testing.
- Successfully deployed **over 60 major releases** of the Infor Nexus product suite, incorporating numerous automated features and integrations seamlessly throughout the DevOps pipeline, utilizing Infrastructure as Code (IaC) across all environments from development to production.
- Led and nurtured a diverse team of engineers encompassing DevOps, Performance & Functional QA, Cloud Environment as Code (EaC) Developers, and Application Lifecycle Management (ALM) Tools admins.
- As an AWS Technical Architect focused on intricate architectural decisions emphasizing high availability, resiliency, disaster recovery, security, and cost optimization resulting in **50% operational efficiency**.
- Engineered a paradigm shift by integrating collaborative practices such as peer programming and instilling a culture of ownership.

### Manager, Configuration Management

#### Aptean (formerly CDC Software)

📅 Aug 2006 - Sep 2012

📍 Bengaluru, India

- Managed end-to-end processes for application packaging, automated builds, sandbox deployment, and software configuration for ERP, CRM, & associated products, supporting the requirements of multiple agile teams. Additionally upheld Source Control Repositories, developed disaster recovery protocols for Source Control Systems such as Vault, TFS, and Seapine Surround.
- Defined best practices and developed process documentation for creating and maintaining setup packages, merge modules, upgrades, and patches.
- Leading the recruitment, onboarding, mentorship, and training of exceptional engineers.

## STRENGTHS

### Visionary Leadership

Successfully driven transformative initiatives and optimizing Cloud Engineering Operations.

### Industry Recognition

Acknowledged with numerous awards and honors for exemplary work in the field, including AWS Rockstar of Infor and AWS Hero of the Year.

### Communication Skills

Strong communication abilities, evident in tech blogging, public speaking engagements, and community involvement.

### Mentoring

Experienced in coaching and mentoring multi-disciplinary teams, fostering professional growth and development.

### Technical Expertise

Demonstrated proficiency and deep knowledge in a wide range of AWS cloud services as well as cutting-edge Infrastructure-as-Code frameworks.

### Collaboration Champion

Deeply committed to fostering collaboration and knowledge sharing within professional communities.

## SKILLS

Cloud Migration & Modernisation

Cloud Service Delivery

DevOps & Automation Proficiency

Infrastructure-as-Code (IaC) Frameworks

AWS Services

Application Lifecycle Management (ALM)

Automated Release Management (CI/CD)

Microservices Architecture

Software Resilience & Performance Management

Leadership & Team Development

Strategic Alliances & Partnerships

Community Engagement & Collaboration

Tech Blogging & Content Creation

Public Speaking & Presentations

## Build & Release Engineer

### Synaptris Decisions

📅 Jul 2005 – Aug 2006

📍 Bengaluru, India

Developed installers, coordinated IntelliVIEW Reporter development, automated build processes, and implemented FinalBuilder for IntelliVIEW Products.

## Senior System Analyst

### Sonata Software Ltd

📅 Apr 2004 – May 2005

📍 Bengaluru, India

Developed and maintained multi-platform installers for TeamDeveloper 2005 and related products, ensuring compatibility with all versions of Windows and Linux, including customized options for Linux installations.

## Project Leader

### Bannari Infotech Private Ltd

📅 Jun 2000 – Apr 2004

📍 Coimbatore, India

Developed desktop and web GIS applications for vehicle tracking systems, packaged applications using InstallShield Developer 7.0, and maintained eseebargain.com while conducting testing.

## VOLUNTEERING

### AWS Hero & Organiser

#### AWS User Group

📅 Oct 2019 – Ongoing

📍 Bengaluru, India

- Disseminate knowledge and expertise on AWS services, technologies, best practices, and real-world use cases.
- Organize monthly meetups, workshops, webinars, and hackathons to educate and engage the community.
- Offer mentorship, guidance, and support to fellow group members, assisting them in navigating AWS resources and advancing their skills and careers in cloud computing.

### Core Member & Secretary

#### BIT Sathy Alumnae Bangalore Chapter

📅 Nov 2014 - 2021

📍 Bengaluru, India

Strengthening a dynamic alumnae network to positively impact both society and the institution in optimal ways.

## EDUCATION

### M.B.A in Information Systems

#### Madurai Kamaraj University

📅 2001 - 2003

### B.E in Computer Science

#### Bannari Amman Institute of Tech.

📅 1996 - 2000

## CERTIFICATION

Microsoft Certified Azure Fundamentals

Microsoft Certified Azure Architecting Technologies

AWS Certified Solutions Architect- Associate & Professional

## AWARDS

 Now Go Build 2022

 AWS Ambassador

 Women Techmakers Ambassador

 AWS Rock Star of Infor

 AWS Hero of the Year 2022

 TEDx-Women's Quest To Self-Empowerment

 AWS DevTools Hero

 AWS Community Hero

 Alumnae Excellence Award

 AWS re:Invent diversity scholarship
